Equipped with 24 or 48 10/100Mbps ports, 2 10/100/1000BASE-T ports, and 2 combined 10/100/1000BASE-T/SFP ports, the Integrates advanced management and security functions that provide performance and scalability. Whenever you are encountered cyber crimes or hacker attempts, the IP change is maintained under control and the location of the IP address becomes tracing. With bandwidth control, the network administrator can reserve bandwidth for important functions that require a larger bandwidth or may have high priority. Type of switch: Managed, switch layer: L2. This allows extensive settings of switch configuration and basic configuration of detected devices such as password changes and firmware updates. This enables you to adjust the basic configurations such as password or firmware changes and uploads of configuration files. Versomatic Management The new SMART web switching generation offers growing companies a simple and easy management of your network using an intuitive SmartConsole utility or a web-based management interface that allows administrators Remotely control your network until the door level. Containers Containers Web SMART switches are designed to provide small and multi-day users companies a complete control over the network. The des-1210 series allows flexible connection to a backbone or servers. SÃ © Rie also supports ACL filtering and the D-LinkÃ ™ s protection mechanism. Both models come with an innovative non-ventilator design in boxes. The des-1210 SÃ © 1210 supports D-View 6.0 and Compact Command Line Interface (CLI) through Telnet. In addition, the des-1210-28 / 52 uses Auto Voice Vlan, guaranteeing higher priority for the traffic voice. With the IP-Mac-Port Binding (DHCP Snooping) feature, the Switch monitors the DHCP information to automatically learn the IP-Macport Binding pairs and create a white list. Loopback detection is used to detect loops created by a and automatically shut down the affected port. Â Switches within the same L2 network segment that are connected to the user's local PC are briefly displayed on the screen Although easy to use, the DES-1210 series provides a complete, affordable solution for small and medium-sized businesses. At 2000Mbps Full Duplex, Gigabit ports provide high-speed data pipes to servers with minimal data transfer loss. Protect your innovative D-Link Network Safeguard Engine function protects switches from traffic flooding caused by virus attacks. Rackmount, Formsheet: 1U D-View 6.0 provides a useful toolset for network administrators who want to effectively manage device configurations, fault tolerance, performance, and security.Long Summary Description D-Link Des-1210-28 Managed Network Switch L2 1U Black: This is an automatically generated long summary of the D-link DES-1210-28 Managed Network Switch L2 1U Black based on the first three specifications of the first five specific groups. Extensive Layer 2 Features equipped with a full range of L2 capabilities, these switches include IGMP snooping, port mirroring, spanning tree, and link aggregation control protocol (LACP). Complete duplex. The IEEE 802.3X flow control function allows servers to connect directly to the switch for fast and reliable data transfer. In addition, the Access Control List (ACL) feature improves network security and helps secure the internal IT network. In addition, all ports support automatic MDI/MDIX crossover negotiation, or configurable Auto MDI, and therefore output with crossover cables or uplink ports. D-View 6.0 is a network management system that enables central management of critical network characteristics such as availability, reliability, resiliency and security in a consistent manner. D-link DES-1210-28. With this utility, users do not need to change the IP address of the PC and it also provides a configuration etse etse ,laudividni NALV e atla siam edadiroirp amu moC .sonretxe suidar serodivres ed oiem rop adacitnetua ajes eder a euq odnitimrep ,x1.208 atrop o£Ã§Âacitnetua a matropus sehctiws sO .setnegiletni sehctiws sod lic¡Ãf It guarantees the quality and safety of VoIP traffic. traffic.
